Only three stocks were dealt in to the extent of 10,000 shares, namely, Sugar Refining, Brooklyn Rapid Transit and Manhattan Railway. The concentration of speculative interest in these stocks was such that in only three other cases did the transactions aggregate as much as 5,000 shares. These figures furnish an adequate idea of the prefound stagnation of the market. In respect of strength, the conspicuous features were Pullman's Palace Car, Man-hattan, Burlington and Quincy and American Tobacco. On a volume of business which made up nearly one-fourth of the total dealings of the day, Sugar Refining closed 3 \$ cent. be-low last night's level without any fresh explanation of the pressure apparent in that case. The special strength evident in ses noted was also without any more definite explanations than have been set forth in relation to the movements in these stocks sariler in the week. People's Gas covered s fairly wide range of movement and closed 4 9 cent, higher than last night, notwithstanding the exploitation of additional and characteristic strikes against the company. The London market for American stocks was reported still unsettled by reason of the apprehensions enter-tained there as to the outcome of Germany's abtitude teward our occupation of the Philippine Islands, but the actual dealings here for foreign account were upon a trivial scale. The market elesed strong and at nearly the highest figures As compared with the final prices of last Sat-

arday, the majority of stocks are higher. The more important net advances are in Pullman's Palace Car, 184 9 cent.; People's Gas and Coke, B; Brooklyn Rapid Transit, 23e; American Sugar Refining, 21e; Manhattan Railway, 14; American Tobacco, 1%; Rock Island and U.S. Leather preferred, % each; General Electric and Pittsburg, Cincinnati, Chicago and St. Louis, & each; Consolidated Gas and Texas Pacific, % each, and New York Central, 1g W cent. The noteworthy declines are in Baltimore and Ohio, 14 \$ cent.; Pacific Mail and Union Pacific preferred, 1's each; American Spirits preferred, 1; Missouri Pacific and American Spirits, 78 each; Metropolitan Street Railway and West ern Union. & each; Northwest and Northern Pacific. 5 each, and Cleveland, Cincinnati, Chicago and St. Louis, 19 W cent.

The local movements of money this week are described by the New York News Bureau as follows: "The bank statement of to-morrow promises to increasingly reflect the collection of checks drawn to the Treasury Department for the new bonds, but probably the amount of drain of this character upon bank resources will not be very great until next week. Thus far the collection of checks has affected a wide section of the country. On ordinary operations with the interior by express the banks have this week made a much smaller net gain, which is generally estimated at \$1,000,000. Interior banks are adopting a more conservative policy in the shipment of funds to New York, as their customers are drawing upon them for bond payments. At the Treasury the banks have gained \$120,000. The New York Sub-Treasury's regular dily reports indicate for the full week as follows: Total receipts, \$16,500,000, including \$650,000 from other offices. Therefore, the war disbursoments have more than offset the collections for bonds in New York."

There were no new or interesting developments in cotton tooday. The trading continued duil, and the fluctuations in prices were confined within a narrow range, with the tendency downward. Liverpool was lower, both for futures and on the spot; there was some seiling here for Liverpool account. New Orleans solds the weather and crop advices were very favorable, and local longs sold out. Then, ioo, the spot markets in this country were quict, and in some instances lower; the receipts for the week were illeral as compared with 1816. The weather in the Missiasippi Valley was fair, and in Texas there was no moisture worth speaking of, while the signal service predicted gracerally fair weather during the next 18 hours. Accordingly prices declined. The decline was slight, however, for there was very little pressure to sell. The fact that the Exchange will be closed for three days checked bearlab operations, owing to the fear of unfavorable developments in the crop stantion during that period. Another factor which militates against bearlab operations on an extensive scale is the cheapness of the price, while the prosperity of seneral business, easy money, and the fear of a severe setback to the crop during July and August are not less light of by the bears. Montgomer, Ais. June 28,—"I never saw floor crops in this section. Planters all over the State bring glowing descriptions. In this immediate section there is more souton planted than less tyear. There was a great rush of business in the County Register's office on Thursday, More than 800 papers were filed, representing the heaviest day's business ever experienced in that office. In order to save the charges required under the new tax the office was besieged by cierks and lawyers who had come to file trans-fers and mortgages. There were only twentyseven papers filed yesterday, and in nearly every case the applicants were greatly surprised to learn that they must pay the new tax. Since the transfers on Wednesday further de
